Jakarta, Indonesia

I am a final-year informatics student with a particular interest in web development. As a front-end - Intern, I am confident that with the knowledge and skill set, I have gained through my undergraduate study, I will be able to contribute, learn, and hopefully improve myself in any future internship programs I will join when given the opportunity.

## Education Level

---

### National University - Jakarta, Indonesia

Nov 2020 - Jun 2024 (Expected)

#### Bachelor Degree in Informatics, 3.92/4.00

- Thesis title "Application of Face Detection on The Effectiveness of Student Online Learning Using The RAD Algorithm and Convolution Neural Network".
- National & international learning certificates in BNSP, Dicoding, and Coursera.
- Actively participated in more than 10+ such webinars about tech, software, machine learning, and skills training workshops about web development.
- Have participated in one of the Kampus Merdeka (independent study) for six months on UI/UX.

## Project

---

### Project-Based Virtual Intern: Front End Developer Core Initiative Studio x Rakamin Academy

Jan 2024

#### front-end developer

- I work as a Front-End Developer intern at Core Initiative and am responsible for developing two pages for an e-commerce website, namely the men's clothing and women's clothing pages. work with the UI/UX team and the Backend team to ensure that the website has complete design components and API code.

### BNSP- Web Development

Dec 2023

#### Student Scholarship Registration

- Implementing User Interface. Implementing Text, Graphics, and Multimedia Programming Language Execution Commands. Arranging Functions, Files, or Other Programming Resources in a Neat Organization. Write Code with Principles According to Guidelines and Best Practices.

### UI/UX Project Capstone

May 2023 - Jun 2023

#### Mobile APP Laundry Yuk

- Create case studies including business model canvas, empty mapping, user persona, user perfective, Idea Prioritization Matrix, crazy eight, and prototype app in Figma

### Web Programming Course

Aug 2023

#### X University New Student Registration

- Website Display Implementing HTML, CSS, and JavaScript. Display and add data from the database, with PHP programming language, MySQL database

## Workshop Experience

---

### Introduction to Learn Full Stack Web Development

Dec 2023

#### Participant

- During a dynamic and intensive two-day workshop, I delved into the world of Full Stack Web Development. The workshop centered around the creation of a demo blog application that allowed for Create, Read, Update, and Delete (CRUD) functionality. Despite its brevity, this immersive experience provided me with invaluable insights into the intricate process of building web applications that encompass both front-end and back-end development.

### Basic of GIT Versioning

Dec 2021

#### Participant

- I learned that Git plays an important role as a version control system, and demonstrated collaboration in Git

### Fuzzy Logic On Internet Of Things Temperature Condition

Nov 2022

#### Participant

- I attended the Fuzzy Logic on Internet of Things Temperature Condition workshop at National University. This workshop provides an understanding of the application of fuzzy logic in Internet of Things (IoT) based temperature control systems. I gained skills in designing and developing IoT-based temperature control systems using fuzzy logic.

*Participant*

- I attended the Quality Assurance Automation with AI workshop at National University. This workshop provides an in-depth understanding of the application of AI in test automation. I gained skills in applying AI in test automation, as well as a new perspective on test automation.

**Skills, Achievements & Other Experience**

---

- **Coding Skills:** HTML5 (expert), CSS3 (expert), Javascript (beginner), Tailwindcss (expert), VueJs (beginner), Nuxt (beginner).
- **Design Skills:** Figma, Whimsical.
- **Workflow and Collaboration:** Git, Github.
- **Soft Skills:** Teamwork, Communication, Time Management.
- **Certificate/ Coursera** (2023): Foundations of User Experience (UX) Design.
- **Certificate/ Dicoding Indonesia** (2023): Memulai Dasar Pemrograman untuk Menjadi Pengembang Software, Belajar Dasar Structured Query Language (SQL), Belajar Dasar Pemrograman JavaScript, Belajar Dasar Manajemen Proyek.
- **Languages:** Bahasa Indonesia (native speaker), English (fluent).
